

The BotBuilders

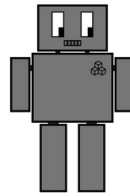

Founded in 2016, The BotBuilders are a not-for-profit, community-based robotics team. Our members come from a variety of local schools and meet every weekend to design, build and program innovative robots.

We're passionate about **inspiring** others and sharing our love of STEM. We mentor schools and run weekly Robotics Immersion Programs, connecting with younger students to build confidence and skill in robotics.

The BotBuilders compete in multiple programs:

- FIRST Lego League
- FIRST Tech Challenge
- FIRST Robotics Competition

We love all things robotics!

BotBuilders

Our team is hosted by Building Block Studio and proudly supported by Building Block Robotics.

BotBuilders Robotics

**To Inspire
&
To Share**

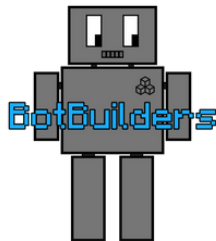

We form teams to compete each year. These competitions see students work together to achieve an outcome. This process and team bonding is just like other sporting pursuits.

The Know-how

- Research
- Design
- Build
- Code
- Test
- Iterate

Fun Competitions

Project-based, hands-on FIRST programs introduce students to engineering and coding in engaging, inclusive, and creative learning environments, where students work collaboratively to solve themed robotics challenges.

These 3 programs cover different age group from 9 - 18.

More Than Robotics

- Team Building
- Problem Solving
- Fund Raising
- Showcase
- Community Service
- Sustainability

"Kids often come in not knowing what to expect; of the program nor of themselves. They leave, even after the first season, with a vision, with confidence, and with a sense that they can create their own future."

Dean Kamen, Founder of FIRST
